

Bulb Brass
INGO MAURER TEAM 2021

Brass base, mouth blown Murano crystal glass. Bulb Brass is the new member of the Ingo Maurer Bulb family. Based on the world-famous 1966 design, the Ingo Maurer team developed a brass version. The handcrafted lamp base is made of high quality brass. The untreated brass surface tends to change over time, giving it a special character. A patina is created, a surface change by natural aging. Patina is the result of daily use and is perceived as an aesthetic gain, as it stands for a characteristic material property that can ultimately be understood as the individual signature of the user.

Light source

With top-chromated LED string bulb, E27, 8 W, 2700 K, 800 lm, EEC A+. Socket E27, max. 100 W, compatible with bulbs of the energy classes A++ - E. Originally with top-chromated bulb, 100 W, CRI 100, EEC E.

Technical data

For 230 or 125 volts
